 - enable entry and edit of user fields in QAD schema
- Full Compliance functions
 - audit any field
 - e-signature on any field
 - field validations
 - transaction controls
 - tamper-proof audit table
- Screen controls
 - hide or disable fields
 - relabel and reformat fields
 - skip frames
 - read-only screens

TRIED AND TRUE ADAPTATION ENGINE

TailorPro Elite is built on the renowned TailorPro adaptation engine. Since 1999 TailorPro has met customers' business requirements for Non-Invasive Customizations. Have confidence in the tried and true TailorPro technology, the proven solution that defined the new paradigm of Non-Invasive Customizations for the QAD market.

Add new fields where you need them in the business process flow. Provide new or revised business logic and data structures to support your unique policies and procedures. Get the special functionality, increased productivity and improved controls you need from your software system, with no change to the QAD source code or schema. No hindrance to upgrades!

Achieve more reflectivity of your business needs by your business system, with No Programming Required!

POWERFUL AND AFFORDABLE

\$7,450 includes license (unlimited), remote installation on one server, and training. A low per-user Maintenance & Support Agreement (MSA) is required for the first year to ensure that you gain maximum value from this powerful toolset.
